

SOUL LIGHT - Twenty

Every now and then someone sends me something really poignant and special. Now that we're living in the computer age I thought this article (author unfortunately unknown) was timely.

Love Program 2.0

Phone call to Program Provider ...

Tech Support: Yes Ma'am, how can I help you?

Customer: Well, after much consideration, I've decided to install Love. Can you guide me through the process?

Tech Support: Yes I can help you. Are you ready to proceed?

Customer: Well, I'm not very technical, but I think I'm ready. What do I do first?

Tech Support: The first step is to open your heart. Have you located your heart Ma'am?

Customer: Yes, but there are several other programs running now. Is it okay to install Love while they are running?

Tech Support: What programs are running Ma'am?

Customer: Let's see, I have past-hurt, low self-esteem, grudge and resentment running right now.

Tech Support: No problem, Love will gradually erase past-hurt from your current operating system. It may remain in your permanent memory, but it will no longer disrupt other programs.

Love will eventually override low self-esteem with a module of it's own called high self-esteem.

However, you have to completely turn off grudge and resentment. Those programs prevent Love from being properly installed. Can you turn those off Ma'am?

Customer: I don't know how to turn them off. Can you tell me how?

Tech Support: With pleasure. Go to your start menu and invoke forgiveness. Do this as many times as necessary until grudge and forgiveness have completely erased.

Customer: Okay done, Love has started installing itself. Is that normal?

Tech Support: Yes, but remember that you have only the base program. You need to begin connecting to other hearts in order to get the upgrades.

Customer: Oops! I have an error message already. It says, "error-program not run on external components." What should I do?

Tech Support: Don't worry Ma'am, It means the Love program is set-up to run on internal hearts but has not yet been run on your heart. In non-technical terms, it means you have to Love yourself before you

can Love others.

Customer: So what should I do?

Tech Support: Can you pull down self-acceptance; then click on the following files: Forgive-self; Realise your worth; Acknowledge your limitations.

Customer: OK, done.

Tech Support: Now copy them to the "My Heart" directory. The system will overwrite any conflicting files and begin patching faulty programming. Also, you need to delete verbose self-criticism from all directories and empty your recycle bin to make sure it is completely gone and never comes back.

Customer: Got it. Hey!!! My Heart is filling up with new files. Smile is playing on my monitor and Peace and Contentment are copying themselves all over My Heart. Is this normal?

Tech Support: Sometimes. For others it takes a while, but eventually everything gets downloaded at the proper time. So Love is installed and running. One more thing before we hang-up. Love is Freeware. Be sure to give it and it's various modules to everyone you meet. They will in turn share it with others and return some cool modules back to you.

Customer: I promise to do just that. By the way, what's your name?

Tech Support: Just call me the Divine Cardiologist, also known as the Great Physician, or just "I AM." Most people feel all they need is an annual checkup to stay heart-healthy; but the manufacturer (ME) suggests a daily maintenance schedule for maximum Love efficiency. KEEP IN TOUCH!
